HAMBURG-AMERICAN LINER RUNS AGROUND

The America, Stuck in Mud
Leaving New York—Tide
Was Low

New York, Jan. 4.—The big Hamburg-American liner America, outward bound, ran aground today off Tompkinsville, Staten Island, and immediately hoisted the signal "not under control." The America left her pier at 8 o'clock this morning and began moving her way down the harbor in a steady mile a mile. Owing to last night's violent wind and its continuation today the tide was three feet below normal and because of this the big vessel stuck in the mud. Sheltered by the lee of the Staten Island shore, her condition was not serious and her commander hoped to float her with the rising tide late today.

SAWRIDGE, A NEW TOWN SITE, BUT AN OLD NAME

Beauty Spot at East End of Lesser
Lake, Which Looks For Devel-
opment by Reason of R. R. and
B. C. Railway Line, New Town-
ship Being That one.

For many years Sawridge has been known as an important point on the river route from Athabasca to Gravel and to Peace River. It is situated at the eastern end of Lesser Slave Lake and being on the telegraphic line and mail route to Peace River, has had a telegraphic office and postoffice for a number of years. Also an H. B. Co. store.

Due to the old conditions of transportation prevailed, there was very little doing at Sawridge. The situation was beautiful with the sandy beach of the lake in front of the wooded bank hills to the south, the beauty of situation or fertility of the surrounding country, or timber suitable for sawing into lumber were not enough to attract the attention of investors. The touch of life is given by the construction of the Edmonton, Peace River and Peace River railway, and the proposed program from Edmonton to Dunvegan. Track is being laid at the rate of a mile a day. The West Coast line has not yet reached Sawridge but the line is definitely located and work will not be long in progress next summer. The Sawridge Realty company, which is situated at the first corner, have had property at Sawridge, immediately adjoining the R. R. and B. C. railway.

The description of the property is: R. of 2, Township 7N, Range 6, West of 1st Meridian. Fifth. Sawridge is a proposed subdivision on the Canadian Northern and Peace River railways, a divisional point and junction of the Alberta, Peace River and Eastern railways, for lines to the States and Atlantic and Pacific coast.

Gordon, Dean of Agriculture, of the Saskatchewan University will also be asked to attend.

TURKEY WILL NOT GIVE UP ADRIANOPLE

Demand of Allies for Surrender
of Fortress Categorically
Refused.

MAY APPEAL TO
EUROPEAN POWERS

Bulgarian Delegates Hint That
Intervention May Provide
a Way Out.

London, Jan. 4.—The Ottoman delegates to the peace conference have absolutely made up their minds not to surrender the fortress of Adrianople, or the islands in the Aegean Sea, according to a statement made today.

An explicit and categorical declaration to this effect was prepared for submission at today's session of the peace conference in St. James Palace. The Turks, however, may make some further concession in the province of Bitlis.

The delegates of Bulgaria, Greece, Montenegro and Serbia met at half past three this afternoon to consider their attitude in view of the probable Turkish reply to their demand for a decision on the question of Adrianople.

Resumed Conversations.

The ambassadors for Hungary, France, Germany, Italy and Russia resumed their conversations at the British foreign office and began considering the question involved in the crisis which has been reached in the peace negotiations.

The attitude of the Balkan allies during today's session of conference was reinforced by Dr. Janoff, the chief of the Bulgarian delegation, who stated:

"We expect that the Turks will be unable to give us an acceptable counter-proposal. We have an army which can continue the war."

Dr. Janoff added a phrase which possibly indicates that a way out of the session may be found. He said: "If the Turks wish to appeal to the European powers we cannot prevent them from doing so."

It is believed to be the intention of Turkey to yield on the question of the island of Crete and to cede to the Italian allies all her rights there. The Turks unexpectedly renounce their claim to the fortress of Adrianople. It is understood that the Italian allies are ready to maintain their original claims in regard to the fortress of the Turkish province of Thrace. They would be prepared to make it run from Kios on the Aegean Sea, along the Maritza river to Adria on the Black Sea, instead of from Rodosto on the Black Sea to Adria as was at first proposed by them.

BULGARIA AND ROMANIA ARE DELICATELY POISED

London, Jan. 4.—The relations between Bulgaria and Roumania are reported to have reached a delicate stage and that this fact possibly may explain Turkey's attitude in the peace conference. Dr. Janoff, of the Bulgarian delegation yesterday had an interview with the Roumanian minister to London, M. Alexu, and the Roumanian minister of the interior, A. Jonescu. It is understood that the interview concerned Roumania's claim to a rectification of her frontier as compensation for her recent neutrality in the war between Turkey and the Allies. No agreement was reached, however, and it was arranged that another meeting should be held in a few days.

According to the Morning Post and the Daily Telegraph, Dr. Janoff displayed a determination to meet Roumania's demand and the dispute reached a crisis. It is said that Roumania wants a small frontier and this Bulgaria declines to concede.

The Daily Telegraph declares Bulgaria has not even appointed a plenipotentiary to meet the Roumanian ministers and discuss the question. The newspaper adds that unless satisfaction speedily is given the war party in Roumania, they are likely to get the upper hand and overthrow the present cabinet.

The Morning Post prints an interview with Roumanian statesmen in which they refused to believe that Roumania would make a wanton attack on Bulgaria, declaring that such an attack would mean the destruction of all Europe.

On to Constantinople.

London, Jan. 4.—When the conference adjourned yesterday, all the delegates realized the gravity of the situation. Some of them believed the peace would be prematurely rejected, the allies demand, others that the Porte, finally realizing it must surrender or fight, would accept the terms. There was no diversity of opinion, however, over the statement that the meeting today will mean a renewal of the war if the powers do not force Turkey to her senses. The allies feel that the demands put forward by them are not reasonable; that they must be accompanied by a declaration of the victors that the cry of the allies, voiced by Dr. Janoff, will be "on to Constantinople."

The allies say they have indubitable information that the Turkish army at Adrianople is demoralized, and will be being decimated by disease. They declare they will not wait until they have driven the Turks back and have made up of Europe for ever.

The latter, and partly to the ability of the ladies, who had prepared the boxes of food, several prizes were obtained, the male element receiving a little short of one hundred dollars. While the evening consisted of "box" socials, a capital musical program was offered under the able presidency of Mr. J. D. Marshall. The program was a success, and the ladies who had contributed to such a pleasant evening and the singing of the Welsh national anthem terminated a highly successful meeting.

TOWN FOR POULTRY FAIR.—The finest carload of young pullets and cockerels ever consigned to the West, were shipped by express from Toronto on Friday, via the U. T. P., addressed to the provincial department of agriculture, and are expected to arrive on Tuesday. They were purchased by the Hon. J. D. Marshall during his recent trip to the East, and were specially selected by the farmers of the province, and are the finest poultry ever in eastern Canada.

Over since the announcement was made in the Bulletin recently, the department of agriculture would sell day-old, pure-bred chicks to the farmers of the province, a number of orders for them have been received in every day, said Mr. Marshall on Saturday. This shows that the efforts of the department to raise the standard of agriculture in the province are being appreciated. The orders are not confined to one locality, but are being received from all parts of the province.

CAR OF BEER RUNS AWAY.—On Saturday a car of beer in semi-way from the train to which it was attached and went on the down track, past the Edmonton hotel towards the low level bridge. There was no brakeman on the car, but it was being run by the engine. The car was stopped by the engine, but it was not until it was almost at the low level bridge, that the brakeman was discovered. The car was then run back to the train, and the brakeman was then discovered.

The incident, while having a lucky result, nevertheless, is a warning to the public to be careful when riding on the railway commission, to have installed at every station, and at the low level bridge some safety device to be of use in emergency.

A derailing engine was ordered by the railway commission as a safety device where the Edmonton railway crosses the E. Y. and P. tracks on Main street. A collision on the low level bridge, with its congested traffic might be far more serious than one at the crossing which is protected, just the only protection is a flagman and a policeman.

MANY CHARGES OF THEFT.—According to the police officials, there are at the present time in the city a large number of men who are charged with the theft of various articles. The police are now working to bring these men to justice.

On Saturday night two men named John and Eric had been gathered in on a charge of attempting to steal a car. The car was a 1912 model, and was worth \$1,000. The men were charged with the theft of the car, and were held in custody.

ADDRESS ON IMMIGRATION.

"Canada's greatest social problem is that of immigration. The foreign element was made Sunday afternoon at three o'clock by W. W. Lee, national secretary of the Y.M.C.A., before the men's association of the Methodist church. It is the most difficult and perplexing question we have to deal with today," continued Mr. Lee, and the demand for efficient leadership and united action on the part of the Canadian people has never been more urgent or necessary. Every day for the past eighteen months there has been an average of 125 non-English-speaking people who have come to the Dominion to take up the duties of Canadian citizenship. In other words, nearly 50 per cent of the total number of immigrants are foreigners. For the most part the newcomers are rough, uneducated and illiterate. They have none of the essentially good qualities which characterize the Anglo-Saxon race.

They are pouring into our coast cities by the thousands, and the western country has begun to feel their influence along with other portions of the country. Like a great herd, they are sweeping down upon us until there is no phase of our national life which

has not become affected by them. Under the right conditions, and with the assistance of just laws to the Canadian and the peace of this country, but permitted to follow his own inclination he may be the greatest of destroying the entire fabric of our commonwealth.

"Education is no exception to other cities. The problem is here an element, the peril is just as imminent here as in any other part of Canada. I think that it is our present duty, each one of you, to see that you play your part in helping to deal with this problem. A unique home mission field is open to you. It is up to you to make and do, and in every way possible to assist the newcomer in broadening his perception of true citizenship and right living."
